RACHEL LOCKWOOD

I'm not gonna cause any trouble for the Board, I swear. You won't hear a word out of me. I'll just disappear. It'll be like I was never here.

[1] I should go. (Leave Conversation)

Greetings, traveler! I am **Lupo**,
Mapmaker Extraordinaire!

Isn't this a contrast from the Crossroads? Such a humid, lively place.
The roads twist and turn in the most wonderful ways.

Friend of Mercator

~Ernst~

Ernst is a famous geographer from Holland. At the request of his cartographer friend Mercator, he sets sail to plot out a detailed map of the world.

Pirates!

Hachure

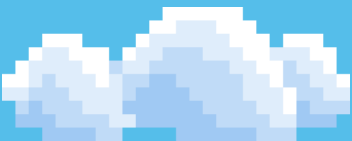

My name is Hachure, and I am a cartographer. My life is about exploration. I learned to pinpoint my location using a sextant before I could walk. You see, my father was one of the greatest explorers to ever sail these seas, and I was under his wing from my very first memories. With every new island that we explored and charted, my passion for this life grew even more.

As I may have told you already, exploration and maps are my life. As you fill out your map, I would be greatly in your debt if you came back to me and let me look it over. As an incentive, I will offer you some of my knowledge and rewards depending on how complete and accurate your map is, based on cross-referencing it with my map collection.
